Centre for Health Education Scholarship (CHES) Research Rounds

Mark Your Calendars! The Centre for Health Education Scholarship (CHES) is inviting you to Research Rounds with

Dr. Oliver Applegarth

Date: Wednesday, April 25, 2012
Time: 12:00pm to 1:30pm (Lunch will be served at DHCC)
Venue: Diamond Health Care Centre 2263
With Videoconference to IRC 305, CWH 2D22, MSB 210,
RJH 011, KGH 235, NHSC 9-370, UHNBC 5009 (Port #1),
BCCA 1065, and Allouette room at Central City

**Please be aware that this session will be recorded and made available online to CHES members on a password-protected site.*

Topic:
Passing Gas and Knowledge: Education in Anesthesia

Abstract:

In this talk I will offer an introduction to the world of anesthetic practice, as seen through an educational lens. The operating room environment, and anesthetic practice in particular, is as reliant on education as it is on clinical skills to ensure success. What we don't know about how education interacts with anesthetic practice far outweighs what is known. I will outline various areas of inquiry being explored by myself and the anesthesia education group, and by the conclusion of the talk participants will be left with insight into what directions medical education in anesthesia is taking at UBC. Specific domains will include the role of simulation, procedural skills training, collaborative learning, and patient safety.

Dr. Oliver Applegarth has been a staff anesthesiologist at VGH/UBCH since 2006, where he is a member of the division of neuroanesthesia. He graduated anesthesia residency from UBC in 2005. He received a Masters of Education from UBC in 2009, where he was supervised by Dr. Dan Pratt. He is the Anesthesia Undergraduate Program Director for UBC's Faculty of Medicine.

ACCREDITATION:

As an organization accredited to sponsor continuing medical education for physicians by the Committee on Accreditation of Canadian Medical Schools (CACMS), the UBC Division of Continuing Professional Development designates this educational program as meeting the accreditation criteria of the College of Family Physicians of Canada for up to **1.5** Mainpro-M1 credits (per session). This program has been reviewed and approved by UBC Division of Continuing Professional Development. The CHES Research Rounds is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the *Royal College of Physicians and Surgeons of Canada*.

The Centre for Health Education Scholarship (CHES) is committed to enhancing health education scholarship by building capacity for educational scholarship across the Faculty of Medicine through collaboration, team-building, mentorship of new faculty, successful funding applications, and other activities.
