

Research *Rounds*

Accredited by UBC CPD

CONTINUING PROFESSIONAL DEVELOPMENT
FACULTY OF MEDICINE

The Centre for Health Education Scholarship (CHES)
invites you to Research Rounds with:

Dr. John Norcini

The case for national assessment programs:
A relationship with quality of care

Date: May 18, 2016

Time: 12:00pm to 1:30pm
(Lunch will be served at DHCC)

Venue: Diamond Health Care Centre, room 2267

With videoconference to:

- IRC 305
- MSB 107
- NHSC 9-374
- CSB V2-220
- RJH CA 120
- Surrey Central City (Manning Rm 4109)
- PHRM 3321
- KGH CAC 237

**Please be aware that this session will be recorded and made available online to CHES members on a password-protected site.*

Dr. John Norcini

President and Chief Executive Officer
Foundation for Advancement of
International Medical Education and Research
(FAIMER)

a place of mind
THE UNIVERSITY OF BRITISH COLUMBIA

ABSTRACT National assessment programs are of growing importance around the world; however, they remain controversial and there is considerable skepticism that they are effective tools for screening healthcare providers. This talk will describe some of the challenges in conducting research that seeks to address this issue. It will also present some of the evidence suggesting that such programs are actually associated with better patient outcomes and are needed throughout the careers of healthcare providers.

ABOUT Dr. John Norcini, PhD, has been the President and CEO of the Foundation for Advancement of International Medical Education and Research (FAIMER®) since its inception. FAIMER is a non-profit committed to improving world health and it has an active research program in international health professions education, physician migration, and the contributions of international medical graduates to the US healthcare system. Prior to FAIMER, Dr. Norcini held a number of senior positions at the American Board of Internal Medicine.

Dr. Norcini has published extensively, lectured and taught in many countries, and is on the editorial boards of several peer-reviewed journals in health professions education. He is an honorary Fellow of the Royal College of General Practitioners (UK) and the Academy of Medical Educators (UK). He has received numerous awards including the Karolinska Prize for Research in Medical Education.

ACCREDITATION: As an organization accredited to sponsor continuing medical education for physicians by the Committee on Accreditation of Continuing Medical Education (CACME), the UBC Division of Continuing Professional Development designates this educational program as meeting the accreditation criteria of the College of Family Physicians of Canada for up to 1.5 Mainpro-M1 credits. This program has been reviewed and approved by UBC Division of Continuing Professional Development. Each physician should claim only those credits he/she actually spent in the activity.

The Centre for Health Education Scholarship (CHES) is committed to enhancing health education scholarship by building capacity for educational scholarship across the Faculty of Medicine through collaboration, team-building, mentorship of new faculty, successful funding applications, and other activities.
